

To whom it may concern,

My name is Justin Price and I am a long time listener of Air1 and KLove radio stations and other Christian stations. First and foremost I want to express my concern on these new regulations and what they will do to Christian radio. This Country was founded by our four fathers on a basis of Christianity and God and I know now days its becoming clear that our government seems to not remember nor understand that. Over these recent years I have sat and watched the government/ FCC do nothing more than to try to take Christianity out of every entertainment source that is available and replace it with a message that contradicts Christianity in every way possible. Homosexual lifestyle, profanity, nudity and slandering of God is all that you find on the main radio and T.V. stations today. I as a Christian am very disappointed and frustrated by all of this and refuse to sit and let it happen without my voice being heard. I know that this is just another email that is piled on top of many others that you care less about, but please listen when I say that these new regulations will NOT be good for radio broadcasting as a whole. The impact that Christian radio has made on peoples lives over these years has been phenomenal and all your regulations are going to do is make the message of God much more vague and distant that no one will get the full effect of the radio station as they do now. I am asking you to please reconsider these regulations and keep Christian radio on the air for all of those who enjoy it and who will want to enjoy it in the future. Thanks,

Justin Price
